

# EMAAR TURKEY BY GOSS DEVELOPMENTS

The project makes use of GOSS Apollo Limestone wall cladding, this is in a 1200mm x 600mm size and 30mm tile

thickness with a sandblasted surface finish. The roof terrace utilises the same stone in a bush hammered finish.

The whole project consists of 4000 Sq/m of external Apollo Limestone wall cladding and internally 3000 Sq/m of the

same stone has been used for the wall and floor tiling but in both polished and honed surface treatments.

# *New Istanbul Development EMAAR Turkey by GOSS Developments*

EMAAR Turkey in conjunction with GOSS Developments have created a mixed-use project on a prime land located in Çamlıca, Istanbul. The project will redefine the region creating a new lifestyle hub.

New Istanbul Project has been designed to create integrated community living. The mixed-use project will feature a 5 star hotel, 126,000 m2 shopping mall and a variety of residences and apartments.
