

STAIN REMOVER FOR MARBLE, GRANITE AND TERRAZZO

14

This product is for removing stains from marble, granite or terrazzo surfaces. It is highly effective on difficult stains caused by: coffee, wine, soft drinks, oil, juices...

USE

Effectively removes stains that have penetrated the material and which would be difficult to remove using normal maintenance products, due to the delicate nature of the materials.

HOW TO USE

PREPARATION AND QUANTITY

The surface should first be washed with water. Apply the product without diluting.

APPLICATION

Apply the product to the surface so that it completely covers the stain. Leave to work for 3-4 minutes and then clean using a soft RUBINET® sponge. Apply more product to the stain and leave for 30 minutes. Should any of the stain remain, repeat the process.

FINISH

Thoroughly rinse with water to remove any remains of the product. Since many foodstuffs are slightly acidic and therefore may harm the marble polish, for a perfect finish, shine up the surface again using MARBLE, GRANITE AND TERRAZZO POLISHER.

TECHNICAL SPECIFICATIONS

CHARACTERISTICS AND YIELD

- Alkaline transparent liquid.
- A mixture of a hydroxide, surface-active agents and perfume.

Ph: 12.5

Density: 2,4 Lb / 0,2 gl. (1,07 kg/l.)

PRECAUTIONS

Use suitable gloves and eye/face protection. Do not mix with other products.
