

## SEALER – WATERPROOFING FOR INDOOR USE

Non-silicone waterproofing product which ensures good protection against a wide variety of stains (such as oil, water, grease and wine) on rustic flooring, baked clay, rustic stone-ware, marble, and stone.

### USE

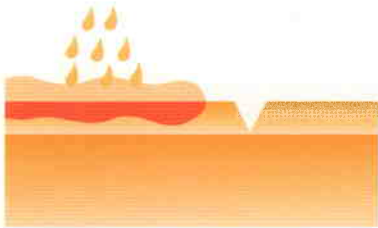

Facilitates the removal of stains, as it prevents dirt from penetrating pores on the surface, which would make later cleaning more difficult.

Particularly suitable for kitchens, bathrooms, restaurants and covered terraces. It also facilitates the removal of incrusted cement.

Do not apply on porcelain tiles or any other type of glazed surface.

### HOW TO USE

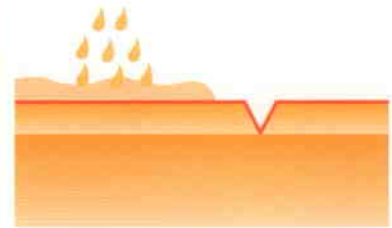

#### PREPARATION AND QUANTITY

Apply undiluted on clean and dry floors.

#### APPLICATION

Do not apply directly. Use a receptacle and apply with a soft RUBINET® sponge.

#### FINISH

Do not apply a further coat or step on the affected areas for 4 hours after application. The product cannot be removed using water.

### TECHNICAL SPECIFICATIONS

#### CHARACTERISTICS AND YIELD

- Light ivory coloured opaque liquid with a distinctive odour.
- A mixture of polymers and surface-active agents in water.

**Ph:** 8.0-9.0

**Density:** 1,6 Lb / 0,2 gl. (0,740 kg/l.)
